

## New Jersey Department of Health Public Evacuation/Medical Needs Sheltering

### What is a Medical Needs Shelter (MNS)?

The Medical Needs Shelter is a location in a shelter area or stand-alone location for evacuees with chronic health and/or minor medical condition(s) requiring oversight by a medical professional.

The purpose of the MNS is to support **basic short-term health and/or minor medical condition(s)** during a disaster when persons evacuate their home. These persons cannot be accommodated in a general population shelter due to a specific minor medical need(s).

If a disaster requires evacuation and sheltering, the Medical Needs Shelter will provide a **safe sheltering location, environment**, and basic medical assistance/care for the support or maintenance of chronic health or minor medical condition(s) based on an individual's level of health.

**Caregivers (home health care, visiting nurses and family support members) are allowed and encouraged** to come into the MNS portion of the shelter and continue to provide care for their clients.

Service animals are allowed in the Shelter. The owner is responsible for the conduct of the service animal.

### What Should I Bring With Me? (Checklist)

- Personal identification, medical cards, health & prescription insurance cards (Including Medicare & Medicaid).
- Any/All** prescription medications you are currently taking in the original bottles with prescription labels, including insulin and all your over-the-counter medications.
- All parents/caretakers of infants and children with specialized medical care should bring formulas, as well as disposable diapers and wipes.
- Any blood glucose monitoring devices.
- Eyeglasses, dentures and hearing aids.
- Any portable medical equipment including wheelchairs, walkers or canes.
- Your oxygen cylinder and an oxygen concentrator.
- Your cell phone and charger.
- A list of personal contacts including family members, your doctor(s)'s, pharmacy and medical supply company.
- Your medical appointment calendar.
- Clothing and footwear for several days, including night garments and under garments.
- Toiletries (soap, shampoo, toothbrush)
- Incontinence supplies (liners, briefs and pads) and personal hygiene supplies
- Any non-perishable food or snacks that support a special diet (liquid-nutrition, gluten-free, casein-free etc).

### JOIN TODAY: **PREPARING IS CARING .... ARE YOU REGISTER READY?**

"Register Ready" is a free, voluntary and confidential web-based program designed to identify the needs of people who may find it difficult to get to safety in the event of an emergency.
